

Lisa C. Decker

Waking Up & Shaking Up the Way America Divorces!

Lisa C. Decker brings a vast array of experience and talent to her clients operating as one of only 5,000 professionals in the U.S. and Canada that have received the prestigious designation of Certified Divorce Financial Analyst (CDFA). Lisa acts as a discreet problem-solver and assists clients in moving from confusion to clarity as she guides them, step-by-step, from contemplation through completion while helping them save their money and their sanity in the process thru her business at www.DivorceMoneyMatters.com.

In her practice working with clients and colleagues, she has seen the good, the bad, and the unfortunate ugly, in divorce situations. These experiences have lead her to create a way for people who have been affected by divorce to find better, less bitter, ways to get through and past the process by facilitating events where those who seek can connect with those who serve allowing people to move from just “surviving” to “Thriving!”

Recently she launced DivorceTown™ which delivers help and hope through a new online community. DivorceTown’s mission is *Improving the Way America Divorces, One family at a Time™.*” Lisa believes what’s important in divorce is focusing on your family, your finances and your future.

DivorceTown offers live community events like the DivorceTown™ Help and Hope Fair and signature workshops like Speed Divorcing™ ... a program focused on providing quick access to a wide variety of specialists so individuals can walk away with a depth of understanding of the important aspects that will impact their divorce. Lisa’s programs have been sold out in Atlanta and she will be expanding these offerings in the future.

WHAT PEOPLE ARE SAYING...

I only wish that I had known these things before my divorce was final...

I consulted with Lisa about several post-divorce issues I was left wondering how to deal with several months after my divorce. She gave me several creative ideas on what to do with our house situation (things that should have been addressed by the attorneys before the divorce was final); explained how the process of QDRO's and transfer of retirement and pension accounts worked; and shared information on budgeting and health insurance matters as well. Her expertise was very helpful.

I only wish that I had known some of these things before my divorce was final. It surely would have made my divorce experience easier. I highly recommend a strategy session with Lisa sooner in the process than later if you are getting a divorce. ~ Gwen B., Portland, OR

The DivorceTown Fair was an EXCELLENT event!

The Presenters and Exhibitors provided extremely useful information from professionals who understand divorce and the problems that can be caused by it. This information is critical for people, especially women, to help in surviving the horrors of divorce and preventing a worse aftermath than necessary. I recommend Lisa Decker to everyone I know who's entering this minefield, and am glad that I now have names of other professionals I can also recommend. ~ Sue Verner Smyrna, GA

Avoid Divorce Regrets!

People going through divorce often look back and say, "I should have done this or I should have done that." Lisa Decker's Speed Divorcing workshops help control these regrets upfront by giving an effective overview of the questions that need to be asked and the professionals who have the right answers.
